**LLOYD GEORGE
PREDICTS PEACE**

Premier Is Sure of It Now
That United States
Is in War

WAS GUEST OF
AMERICANS

He Warmly Welcomes This
Country's Aid to the
Allies

London, April 13.—"I can see peace coming now—not a peace which is the mere beginning of another war—but real peace," was the salutation which Premier Lloyd George sent to America yesterday. It was a part of a feeling tribute which England's prime minister paid to the United States in a tumultuously demonstrative meeting yesterday of the American

Luncheon club. Scores of British notables were there. American Ambassador Page presided.

"I am the first minister in behalf of Britain to salute America as one of our comrades in arms," Lloyd George declared. "I'm glad of it—I'm proud of it! I'm glad not merely because of the stupendous resources that your great nation can offer to succor the alliance, but I rejoice as a democrat that the advent of the United States gives the final stamp and seal to the character of the conflict."

"I am glad America has already sent naval and military experts to confer," the premier declared amid cheers. "America's enormous help is illustrated in the guns used in Monday's victory."

"We rejoice that America has won the right to be at the peace conference table when the terms are fixed."

"It would have been a tragedy to mankind if America had not won the right to be at the peace conference table with all the influence and power she has now obtained."

"The Kaiser promised that Prussia would be a democracy after the war," the prime minister observed whimsically at another juncture. "I think the Kaiser is right."

"The United States have a noble tradition that they have never been engaged in war except for liberty," the prime minister continued. "This is the greatest struggle for liberty on which they have ever embarked."

"It was a bad day for the Prussian

military autocracy when it challenged the great republic of the West.

"The road to victory is found in the word 'ships.' America already realizes this; hence the proposition for a thousand and three thousand ton merchantmen."

"For three years the British tried every blunder thinkable and got into every bunker," the premier continued, relapsing into golf terms, "but a fine niblick has made our score. It will be worth while for America to study our blunders so as to begin where we now are, not where we were three years ago."

"America's entrance means something more than waging of an effective war—she will insure a beneficial peace."

"This is the first time we have come into war in the old world," remarked Ambassador Page, in introducing the British prime minister, "except once when we came to suppress the Barbary pirates. It is singular that our present errand is so similar to that previous entrance."

The ambassador said he believed the war would result in a better understanding of the United States by the free nations of Europe and vice versa.

"This," he added, "is the largest constructive political need of the world."

Ambassador Page proposed a toast to the king and to President Wilson.
